CAREER OBJECTIVE

Aspiring Cybersecurity professional seeking a challenging role where I can apply my skills in penetration testing, ethical hacking, and secure coding to support organizational security and growth.

EDUCATION

Karpagam Academy of
Higher Education
CGPA - 7.3/10 (Pursuing)

HSC, Little Flower Matric Higher
Secondary School
(2021 - 2022)

SSLC, Little Flower Matric Higher
Secondary School
(2019 - 2020)

AREA OF INTEREST

- Cyber Security
- Ethical Hacking
- Penetration Testing
- Cloud Computing

TECHNICAL SKILLS

- Cybersecurity Tools:
Nmap, Wireshark,
Metasploit, Burp
Suite, Kali Linux
- Languages: HTML, CSS,
Python (Basic proficiency)
- Networking & OS:
Windows, Linux,
Virtual Labs

PROJECTS

Malware detection using XAI (present)

- Malware detection models using Explainable AI (XAI) to make threat predictions more transparent and easier to understand.

CAPTCHA Generator

- Built a simple CAPTCHA generator using Python to create distorted images/text to block bots and verify human users.

Password Generator & Strength Checker

- Developed a Python-based tool to generate strong random passwords and analyze strength based on entropy and complexity.

INTERNSHIP

Full Stack Development Intern

Pantech E-Learning

- Learned frontend and backend web development using HTML, CSS, JavaScript, and basic frameworks.

Penetration Testing Intern

- Conducted basic vulnerability assessments using tools like Nmap and Burp Suite on test applications in a virtual lab.

CERTIFICATIONS

- Microsoft Azure – Cloud Fundamentals
- Certification in Network Defense Certification in
Digital Forensic Investigation

STRENGTHS

- Observant
- Self-motivated
- Time management
- Problem-solving mindset
